

Seminole County agents have reported a suspicious man who has called several offices requesting that an agent come look at a potential listing. The man will not reveal his name, phone number, or the location of the property. He asks that the agent meet him at a different location and follow him to the property. He claims that he cannot reveal anything about himself because he does not want any preliminary research done on the property before the agent sees it. The police have been notified.

Safety Tip:

Check out your clients.

When you have a new client, ask him/her to stop by your office and complete a prospect identification form. Also, photocopy their driver's license and retain this information at your office. Be certain to properly discard this personal information when you no longer need it.
